

22nd April 2022

Dear Client,

Boab Health Services will be returning to face-to-face client consultations for most of our referrals from 11th May 2022. If you prefer your appointment to be via Telehealth or Telephone then this will also continue to be available. Please contact Boab Health Services staff to discuss your preference.

What can I expect when I attend my appointment?

We have systems and processes to ensure the continuation of high quality, client centric services and COVID-19 practices for all our programs to appropriate clinical management. These processes include COVID-19 screening and clients agreeing to wear a mask when you visit our offices.

These changes will not alter our commitment to our clients, and as always, you are welcome to discuss any concerns, by contacting Boab Health Services direct. For location specific referral processes or other service access matters please contact the following:
